30th ANNUAL AWARDS OF EXCELLENCE WINNERS
ANNOUNCED BY *TECH & LEARNING* MAGAZINE
Outstanding Education Technology Products Saluted

SAN BRUNO, CA (November 5, 2012) – *Tech & Learning* magazine today named 83 education technology products as winners in its prestigious 30-year-old recognition program. Honored software, hardware, network, Web products include innovative applications that break new ground as well as those that added significant enhancements to proven education tools. A panel of more than 30 educators, who tested more than 160 entries, chose the winners.

"As schools continue to have to do more with less, buying the right solution for your district needs is more important than ever," says Kevin Hogan, Editorial Director for NewBay Media's Tech & Learning Group. "*Tech & Learning* is proud to present these recommended products that have been put to the test by our experienced educational team of judges."

Entries were divided into two categories: New Products and Best Upgraded Products. Winning selections include software and Web-based products, as well as hardware and AV tools. Among the high-quality offerings being honored are resources addressing management, safety, communication, differentiated learning, assessment, and other key areas in education.

Please join us in congratulating the New Product winners of the 2012 *Tech & Learning* Awards of Excellence. Look for detailed descriptions and judges' comments in the December 2012 Awards Issue.
